Errata:

a) In AEI January 2011 issue, the captions for two images on the special report article entitled **High-Frequency Devices Gear up on Intelligent Products**, which appeared on page 16, were unintentionally interchanged. In relation, the product image on the contents page should have been labeled as antennas from TDK-EPC Corp.

b) In the same issue, in the interview article with Tokio Ito under Business Strategy, which appeared on page 42, the last statement on the third question on column 3 should have been written as ...**We aim to achieve 10 percent in FY2011 to secure a larger share**... instead of ...**We aim to achieve 10 percent in FY2010 to secure a larger share**...

Our apologies to the manufacturers and our readers for the errors.
